

## Document Links

The following pages will provide a way to access some of the documents listed in this course. Because PennDOT regularly updates its documentation, it is always best to access PennDOT publications on line.

Start by accessing the home page for Construction and Materials.

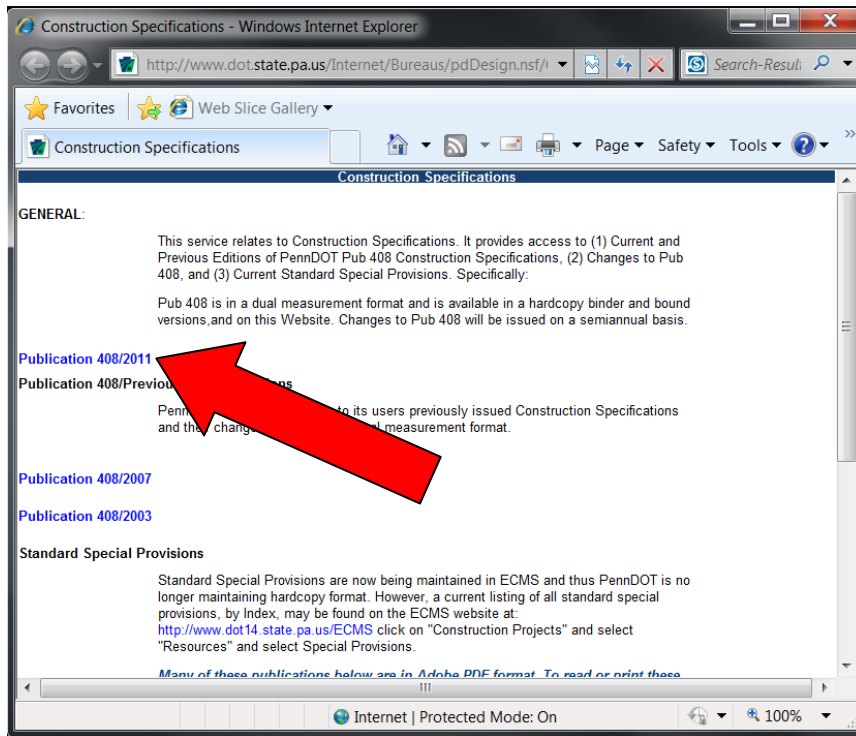

<http://www.dot.state.pa.us/Internet/Bureaus/pdBCM.nsf/ConstructionAndMaterialsHomePage?OpenFrameSet>

The screenshot shows the website for the Bureau of Construction and Materials. The left sidebar contains a list of links: Construction and Materials Home, CDSNextGEN, Construction Specifications, ECMS, Electronic State Book, EForms, New Products Evaluation & Research (NPETS), PA Asphalt Improvement Network (PASIN), PennDOT Technical Training Calendar, Publications and Reports, Transportation Research Board, and Contacts. Two red arrows point to 'Construction Specifications' and 'Publications and Reports'. The main content area features a large photograph of a construction site with workers and a 'Mission' section. The footer includes links for Home, Contact, Web Policies, Site Map, Help, and Text-Only, along with a copyright notice for 2005 Commonwealth of Pennsylvania.

For Publication 408, follow the **Construction Specifications** link.

For the Project Office Manual, follow the **Publication and Reports** link.

1. The Construction Specifications link will open a page where you can access the latest version of Publication 408.

2. The Publications and Reports link will take you to a page where you can download the POM, as well as a number of other PennDOT publications.
